Mazdoor App — Worker Side: Full Page-Level UX & Functional Spec

Every screen below is broken into:

Top Bar → **Body (top to bottom, left to right)** → **Bottom Bar/Buttons** → **States** → **Interactions** .

Icon positions are described exactly so a designer/developer can implement directly from this spec.

1.1 PHASE 1 — WORKER ONBOARDING

1.1 Splash Screen

- **Body:** Center — app logo (animated fade+scale in, 0.6s), directly below it centered tagline text "Start Earning Now" in smaller font.
- **Bottom:** thin progress bar or 3-dot loader, centered, 40px above screen bottom edge.
- **No buttons.** Auto-navigates after 2s or once auth token check completes.
- **State:** if a valid worker session token exists → skips straight to Home Screen (4.1). If none → Language Selection.

1.2 Language Selection Screen

- Identical to customer version (1.2 in customer spec) — 2-column grid of language cards with flag icons, single-select, "Continue" button at bottom.

1.3 Worker vs Customer Selection Screen

- **Body:** heading "What would you like to do?" centered at top.
- Two large equal-width cards side by side:
 1. **"I Want Work"** — icon showing a person with briefcase/toolbelt, tappable → proceeds to worker signup flow.
 2. **"I Want to Hire"** — icon showing a person with a magnifying glass, tappable → proceeds to customer signup flow (redirect to customer app or customer onboarding).
- **Interaction:** Selecting "I Want Work" proceeds to 1.4 (Worker Signup). This screen is shown only on first launch; returning workers skip straight to login.

1.4 Location Permission Pre-Ask Screen

- **Body:** map-pin icon large centered, heading "Enable Location" + subtext "We'll send you nearby jobs and help customers find you."
- **Bottom:** primary button **"Allow Location Access"**, secondary text link below it **"Not Now"**

(location later becomes required before accepting first job with a hard block).

1.5 Notification Permission Pre-Ask Screen

- Bell icon large centered, heading "Get Job Alerts", subtext "You'll be notified instantly when jobs match your skills."
- **Bottom:** primary "Enable Notifications", secondary "Skip".

1.2 PHASE 2 — WORKER REGISTRATION & VERIFICATION

2.1 Auth Choice Screen (Worker Sign Up)

- Identical to customer 2.1, but heading reads "Become a Service Professional".
Google/Facebook buttons + phone number field + "Send OTP" button + "Already have an account? Log In" footer link.

2.2 OTP Verification Screen

- Identical to customer 2.2 (6-digit OTP input, countdown timer, auto-submit on 6th digit).

2.3 Set Password Screen

- Identical to customer 2.3 (password field, strength meter, confirm password, continue button).

2.4 Basic Profile Details Screen

- **Top Bar:** back arrow left, step indicator top-right "Step 1 of 6" (or dot progress indicators at top center).
- **Body:**
 1. Circular profile photo placeholder centered top, camera/gallery upload badge overlapping bottom-right corner.
 2. "Full Name" input field.
 3. "Phone Number" input field (pre-filled from signup, editable, country code locked).
 4. "Gender" — 3 pill buttons: Male / Female / Prefer not to say.
 5. "Date of Birth" — date picker field.
- **Bottom:** primary button "Continue".

2.5 CNIC/ID Verification Screen (Critical — customer trust)

- **Top Bar:** back arrow left, "Step 2 of 6" top-right, heading "Verify Your Identity".
- **Body:**
 1. Heading "National ID Card (CNIC)" with small info icon (tap for tooltip: "We need this to verify

you're a real person and build trust with customers.").

2. "CNIC Number" input field, formatted as: XXXXX-XXXXXXX-X (auto-formatting as user types, mask-end-digits toggle to show/hide last digits).
 3. "Date of Issue" — date picker.
 4. "Date of Expiry" — date picker.
 5. Two photo upload boxes side by side, each with a camera/gallery icon:
 - Left box: "Front Side of CNIC" (placeholder text, drag/tap to upload).
 - Right box: "Back Side of CNIC".
 6. Small subtext below boxes: "Photos must be clear, well-lit, not blurry. Your info will be verified by NADRA."
- **Bottom:** primary button "Upload & Verify", small link below "Why do we need this?" (opens in-app webview explaining NADRA integration and privacy).

2.6 CNIC Verification Pending Screen

- **Body:** animated spinner, heading "Verifying Your Identity", subtext "This usually takes 2–24 hours. We'll notify you once it's done."
- **Bottom:** can tap "Check Status" to re-query verification status, or navigate away (notification will alert when approved/rejected).
- **States:**
 - Approved → auto-navigates to 2.7.
 - Rejected → replaces spinner with ✗ icon, heading "Verification Failed", error message, "Retry" button (allows re-upload).
 - Under Review → remains on this screen.

2.7 Police Clearance/Background Check (for sensitive categories only)

- **Top Bar:** back arrow left, "Step 3 of 6" top-right, heading "Background Screening".
- **Body:** info text "For certain services like domestic work and security, we require a Police Clearance Certificate."
- **Dropdown:** "Service Category" — list of all available categories (Plumber, Electrician, Beautician, Domestic Worker, Security, etc.) — selecting sensitive ones (Domestic, Security) shows additional fields below.
- **Conditional fields** (if sensitive category selected):
 1. "Police Clearance Certificate (optional for other categories)" — PDF/image upload box, drag/tap to upload.
 2. Small info text: "If uploading is optional and you skip this, you'll have access to fewer job opportunities."
- **Bottom:** primary button "Continue" (enabled even if skipped, but flags missing cert in profile later).

2.8 Service Category Selection Screen

- **Top Bar:** back arrow left, "Step 4 of 6" top-right, heading "What services do you provide?"
- **Body:** multi-select category cards in a grid (Plumber, Electrician, AC Repair, Cleaning, Painter,

Carpenter, Appliance Repair, Beautician, Driver, Mover).

Selecting a card highlights it with a colored border and checkmark icon top-right corner of the card.

- **Requirement:** at least 1 category must be selected before "Continue" enables.
- **Bottom:** primary button "**Continue**", disabled/greyed until ≥ 1 category selected.

2.9 Skills & Certifications Screen

- **Top Bar:** back arrow left, "Step 5 of 6" top-right, heading "Your Skills & Certifications".
- **Body:**
 1. For each selected service category, a sub-section appears (collapsible/expandable):
 - "Electrician" sub-heading, chevron-down icon right.
 - Multi-select skill tags/chips below (e.g., "Wiring", "AC Repair", "Solar Installation", "Fault Finding") — worker taps to select multiple skills.
 2. Certification section below skills: "Add Certifications (optional)" button with a plus icon inline-left, opens a sub-modal:
 - "Certification Name" text field.
 - "Issuing Authority" text field.
 - "Issue Date" date picker.
 - "Expiry Date" date picker (optional, if applicable).
 - "Certificate File" upload (PDF/image).
 - Add/Cancel buttons inline at bottom of modal.
 - Once added, certification appears as a small card/chip with an "X" delete icon top-right corner.
- **Bottom:** primary button "**Continue**".

2.10 Pricing & Availability Screen

- **Top Bar:** back arrow left, "Step 6 of 6" top-right, heading "Set Your Rates".
- **Body, per selected category:**
 1. For "Electrician" (example):
 - "Hourly Rate" number input field (placeholder "e.g. 500"), currency symbol "Rs." fixed inline-left.
 - "Minimum Call-Out Charge" number input field (placeholder "e.g. 300").
 - Divider line.
 2. Repeat for each selected service category.
 3. "Availability" section below:
 - Toggle switch: "I'm available to work now" (default on/enabled).
 - If toggled on: shows "Set Working Hours" expandable section:
 - 7 day-rows (Mon-Sun), each with a toggle (switch or checkbox) on-left and two time-pickers (Start Time / End Time) on the right.
 - "Apply to all days" checkbox (bottom of the section, when checked auto-fills all 7 rows with the current row's times).
 - If toggled off: text "You can turn on availability when ready." with a "Turn On" link.
 4. "Radius" slider: "Accept jobs within X km" (slider with numeric display right, range 1–50km).

- **Bottom:** primary button **"Complete Profile"** (blue, large, prominent).

2.11 Profile Complete / Welcome Screen

- **Body:** large celebratory animation (confetti or growing tree graphic), heading "Welcome to Mazdoor!", subtext "Your profile is live. Start accepting jobs!", summary card showing categories + first rate.
- **Bottom button:** **"Start Earning"** → navigates to Home Screen (4.1).

1.3 PHASE 3 — WORKER LOGIN

3.1 Worker Login Screen

- Identical to customer 3.1, but heading reads "Welcome Back, [Name]" (if returning worker detected).
- Google/Facebook buttons, phone + OTP field, phone + password field option, "Forgot Password?" link.

3.2 Forgot Password Flow

- Identical to customer 3.2 (Enter Phone/Email → OTP → New Password → Success).

3.3 Biometric Login Prompt

- Identical to customer 3.3 (fingerprint/FaceID one-time prompt, "Enable" / "Not Now" buttons).

1.4 PHASE 4 — WORKER HOME SCREEN (Job Queue & Dashboard)

4.1 Worker Home Screen

- **Top Bar (fixed, does not scroll):**
 - Left: location pin icon + current city/area label truncated (e.g. "DHA Phase 5, Lahore ▼") — tappable to change service area.
 - Right side: two icons in a row — notification bell icon (red dot badge if unread) + profile icon (small photo thumbnail circular).
 - Center (or slightly below in a secondary bar): **two-state toggle switch** — "Online" (green, filled) / "Offline" (grey, outlined).
Currently active state is highlighted. This is THE primary control.
- **Body, top to bottom:**
 1. **Active Job Counter Card** (if any jobs in progress): full-width rounded card with a colored left border (blue accent), icon (briefcase), bold text "You have 1 active job" + subtext "John's Plumbing repair", tappable to jump to that job's tracking screen.
 2. **Earnings Today** widget (small card): amount large (e.g. "Rs. 2,500") + subtext "Earnings Today" + small icon (money/wallet).

3. **Rating Badge** (another small card): star icon + current rating (e.g. 4.8 star) + small text "(127 reviews)", tappable to view all reviews.
4. **Job Acceptance Rate** widget: circular progress indicator showing percentage (e.g. 95%), subtext "Job Acceptance Rate" (98%+ is "Excellent", 90–98% is "Good", <90% is yellow/warning state), info icon inline (tap for tooltip explaining why acceptance rate matters).
5. **"Available Jobs Near You"** section header, centered text, with a refresh-circular icon inline-right (tap to manually refresh/fetch new jobs).
6. **Job Cards Stack** (vertical list, swipe-down/scroll to see more).
Each card is full-width with rounded corners, light shadow, and shows:
 - Top row: Customer initial-avatar circle (small) left, customer name (truncated), distance "2.5 km away" right-aligned, small pin icon inline-left of distance text.
 - Service type pill/tag: "Plumbing", "Electrical Repair", etc. (colored background matching category).
 - Job title/description: "Fix burst pipe in kitchen" (2-line max, truncated with ellipsis).
 - Pricing row: "Rs. 800" bold left, "(call-out)" or "(hourly)" small text right.
 - Urgency badge (if applicable): small red/orange pill "Urgent - Needed ASAP" top-right corner of the card.
 - Booking type badge: small grey pill "Hire Now" or "Schedule" (bottom-right of card).
 - Two action buttons inline at bottom of card (equal width): outlined/secondary **"See Details"** button (chevron-right icon inline-right) and filled primary **"Accept Job"** button (checkmark icon inline-left).
7. **Heatmap Toggle** (bottom of job list or floating): "Show Demand Heatmap" toggle switch — when on, displays a small heatmap overlay under the job cards or in a separate section, showing high-demand zones/times.
- **Bottom Nav Bar (fixed)**: 5 icons with labels beneath:
Home (house icon),
Jobs (briefcase icon, badge showing count of available jobs),
Active (activity/pulse icon, badge if active job),
Earnings (money icon),
Profile (person icon).
Active tab color-filled, others outlined/grey.
- **Floating Availability Toggle** (semi-persistent): top-right area just below the status bar, a large circular toggle button (primary green "Online" state) showing current online/offline status. Tap to toggle instantly.

4.2 Offline State Visual

- When worker toggles "Offline": job cards fade to 50% opacity greyed-out, a banner floats over them reading "You're offline. Turn on to receive jobs." with a small "Go Online" button inline-right in the banner.
Notifications for new jobs do not arrive while offline.

1.5 PHASE 5 — JOB DETAILS & ACCEPTANCE

5.1 Job Detail Screen (from "See Details" button on job card)

- **Top Bar:** back arrow left, share icon (share job link) top-right, overflow "..." menu far right (Report Job / Block Customer).
- **Body, top to bottom:**
 1. Customer info section:
 - Customer initial-avatar circle (large), name (bold), star rating with stars, verified badge (blue check if customer identity verified), "X bookings completed" small text.
 2. Job details section:
 - Service type (bold heading), e.g. "Plumbing Repair".
 - Job title/description (full text, multi-line), e.g. "There's water leaking from under the sink. Need it fixed ASAP."
 - Photo(s) attached by customer (if any): small thumbnail grid, tap any to expand full-screen gallery.
 3. Location section:
 - Address line (formatted), e.g. "House 42, Street 5, DHA Phase 5, Lahore".
 - Distance from worker (e.g. "2.5 km away"), map-pin icon inline-left.
 - Small embedded map snippet showing the job location pin (non-interactive, for visual reference only), 150px height.
 4. Pricing & Time section:
 - "Pay: Rs. 800" (bold, large).
 - "Type: Call-Out Service" or "Type: Hourly (Rs. 500/hr)" depending on job.
 - "Urgency: Needed ASAP" (red text if urgent).
 - "Preferred Date/Time: Today, 3:00 PM" or "Schedule for 15 Jan, 10:00 AM".
 5. Safety & Trust section:
 - Green checkmark icon "Customer's number is private during the job" (number-masking feature).
 - Blue shield icon "Your location is hidden until you accept".
 - Handshake icon "This customer gives 4.8 star on average".
 6. Additional requirements (if any):
 - "Skills Required: Wiring, AC Repair" (tags).
 - "Materials Needed: [as specified by customer]".
- **Bottom Bar (fixed):** two buttons side by side —
secondary outlined **"See Customer Profile"** button (about 40% width, arrow-forward icon inline-right)
and primary filled **"Accept Job"** button (about 60% width, checkmark icon inline-left).

5.2 Acceptance Confirmation Modal

- Slides up as a bottom sheet or full-screen modal:
 - Heading: "Accept this job?"
 - Summary card showing service type, price, location, time.
 - Two buttons: outlined **"Cancel"** / filled green **"Confirm Acceptance"**.
 - Small disclaimer text: "You can cancel up to 15 minutes before the scheduled time without penalty. Cancellations after that may affect your rating."

5.3 Job Accepted / Pre-Start Screen

- **Body:** large green checkmark animation, heading "Job Accepted!", summary card (customer name, address, pay, ETA to location if "Hire Now" type).
- **Two action buttons below card:**
 1. **"View Directions"** (map icon inline-left) — opens native map app with directions to job location.
 2. **"Start Navigation"** (arrow icon inline-left) — similar, but also triggers in-app navigation overlay or native maps.
- **Bottom:** text link "View Full Job Details" (navigates back to 5.1 screen).
- **State:** If job is "Schedule for Later", screen shows countdown timer to the scheduled time instead of immediate directions.

1.6 PHASE 6 — ACTIVE JOB MANAGEMENT & TRACKING

6.1 Active Job Screen (Worker on the way)

- **Top Bar:** back arrow left, heading "[Customer Name]'s Job", timer showing "Countdown to appointment: 45 mins" top-right.
- **Body:**
 1. **Status timeline** (visual, horizontal):
 - 4 connected dots: "Job Accepted" | "On the Way" (active/highlighted) | "Arrived" | "Completed".
 - Completed steps are filled/green, current step is animated/pulsing, future steps are grey outlines.
 2. **Countdown timer** (large, centered): "45:32" remaining to the scheduled time, or "Arriving in 8 mins" if GPS-tracking to live location.
 3. **Customer card** (tap to expand):
 - Photo, name, rating (stars), "View Profile" link.
 - Quick action buttons inline: **Call** (phone icon, masked number) / **Chat** (speech-bubble icon).
 4. **Location display:**
 - Full-screen map showing:
 - Worker's current GPS location icon (animated, moving along route).
 - Customer's destination pin (fixed).
 - Route line drawn between them (if integrated with a maps API).
 - Below map: address text, distance remaining.
 5. **Status action buttons** (sticky, floats above map bottom):
 - **"Mark Arrived"** button (filled, primary) — tap to signal to customer that you've reached the location.
 - **"Chat"** button (outlined, secondary, with speech-bubble icon inline-left).
 - **"Call Customer"** button (outlined, secondary, phone icon inline-left).
- **Bottom:** small red text link "Cancel Job" (requires confirmation dialog with warning about rating impact).

6.2 Arrived at Job Screen

- Worker has tapped "Mark Arrived", customer gets notification, screen updates:
 - Status timeline updates: "On the Way" ✓ → green, "Arrived" becomes active/highlighted.
 - Action buttons below map change to:
"Start Job" (filled, primary, green checkmark icon inline-left)
/ "Chat" (outlined) / "Call" (outlined).
 - Timer now shows "Job started at: pending" until worker taps "Start Job".

6.3 Job In Progress Screen

- Worker has tapped "Start Job":
 - Status timeline: "Arrived" ✓ → green, "Completed" becomes active/next.
 - Map still visible but less prominent.
 - Large centered section: "Job Started", elapsed-time counter ticking up (e.g. "0:12:34 elapsed"), small subtext "You're working on [job description]".
 - Customer visible in a card above map: tap to Chat/Call.
 - For milestone-based jobs (larger projects): a checklist appears below the timer showing milestones:
 - "1. Assess Problem" ☐
 - "2. Prepare Materials" ☐
 - "3. Repair" ☐
 - "4. Test & Cleanup" ☐worker can tap checkmarks to mark milestones complete as they work.
- Bottom action buttons:
"Mark Complete" (primary, green checkmark)
/ "Chat" (outlined) / "Call" (outlined).
- Small red link "End Job Early" (if customer requests cancellation or worker needs to leave, less prominent to avoid accidental taps).

6.4 Job Completion Screen

- Worker taps "Mark Complete":
 - Modal slides up: "Mark this job as complete?"
 - Summary: service type, duration worked, total pay.
 - Two buttons: outlined "Continue Working" / filled green "Complete Job".
 - On "Complete Job": customer receives notification, worker's status updates, flow proceeds to 6.5.

6.5 Post-Completion / Awaiting Customer Confirmation

- **Body:** large checkmark animation, heading "Great work!", subtext "Waiting for customer to confirm completion..."
 - Circular progress spinner below the subtext.
 - **Bottom button:** "See Active Jobs" (navigates back to home to see other available jobs while
-

waiting, or back to 4.1).

- **State:** Once customer confirms completion in their app (Phase 11 of customer spec), escrow releases automatically, worker notification appears:
"Payment of Rs. X released to your wallet!"
and flow auto-navigates to 7.1 (Payment Complete screen).
-

1.7 PHASE 7 — RATING & EARNINGS

7.1 Earnings Release & Rating Notification

- **Push notification received:**
"Payment of Rs. 800 credited to your wallet from John's Plumbing job!"
- **In-app banner/modal** slides up:
"Job Completed! Payment Received",
amount large (Rs. 800),
wallet balance updated,
button "**View Wallet**" / "**Close**".

7.2 Customer Rating Pending Screen (if customer has rated)

- **Body:** modal/card slides up, heading "[Customer Name] rated you 5 star",
feedback indicator (positive for 5-star, neutral for 3-star, etc.),
customer's written review text (if provided),
small photo thumbnail of completed work (if attached by customer).
- **Bottom:** button "**Thank You**" → closes modal, rating saved to worker's profile.

7.3 No Rating (Timeout) — Reminder

- If 24 hours pass without customer rating:
push notification "Remind [Customer Name] to rate your work?"
 - Link in notification opens in-app message to send customer a prompt (with pre-filled text):
"Hi! Could you take a moment to rate your experience with my work? It helps me improve. Thanks!"
-

1.8 PHASE 8 — WALLET & EARNINGS (Worker Detailed)

8.1 Earnings Tab (bottom nav)

- **Top Bar:** heading "My Earnings", no back arrow (it's a nav tab root).
 - **Body, top section:**
 1. Large balance card, full width, colored gradient background:
 - "Rs. 15,240" large centered text.
 - Small subtext below: "Available Balance".
 - Two buttons inside/below this card side by side:
-

"**Withdraw**" (bank icon inline-left) / "**View History**" (history icon inline-left).

2. Quick stats row below balance card (3 columns):

- Column 1: "Today" subtext, "Rs. 2,500" bold, small down-arrow green icon inline-left.
- Column 2: "This Week" subtext, "Rs. 12,000" bold, same icon.
- Column 3: "This Month" subtext, "Rs. 45,300" bold, same icon.

3. **Earning Breakdown** section header "Your Earnings",

small filter chip row below:

"All Time" / "Today" / "This Week" / "This Month".

4. Earning list, each row:

- Small job-type icon left (wrench for repair, broom for cleaning, etc.).
- Job description + customer name ("Ahmed's Plumbing Repair" truncated), date small grey subtext below.
- Amount right-aligned (green, +Rs. 800).
- Tap row to expand and see full receipt/details (payment method used, service fee breakdown if any, net amount after any platform commission).

- **Bottom:** "Withdrawal" button prominent (fixed position if list is long and scrollable).

8.2 Withdrawal Screen

- **Top Bar:** back arrow left, heading "Withdraw Earnings".

- **Body:**

1. "Available to Withdraw" card: "Rs. 15,240" large, subtext "Minimum: Rs. 500".
2. "Enter Amount to Withdraw" input field with currency symbol inline-left, numeric keyboard.
3. "Select Bank Account" dropdown (shows saved accounts or "+ Add New Account").
4. Fee breakdown (transparent): "Withdrawal Fee: Rs. 20 (1.3small text, with info icon (tap to explain fees)).
5. Summary line: "You'll receive: Rs. 15,220" (amount after fees, bold).
6. Checkbox: "I authorize this withdrawal" (required to proceed).

- **Bottom:** primary button "**Confirm Withdrawal**" (enabled only when checkbox ticked and amount $\geq$ minimum), small text link "Add Bank Account" if none saved.

8.3 Withdrawal Pending Screen

- Checkmark animation, "Withdrawal Initiated", subtext "Your money will reach your bank account in 1-2 business days.", confirmation details card (amount, bank, timestamp).
- Button: "**Done**" → returns to Earnings tab (8.1).

8.4 Add Bank Account Screen

- "Bank Name" dropdown (list of Pakistani banks: HBL, UBL, NBP, etc.).
- "Account Holder Name" text input.
- "Account Number" numeric input (16-19 digits, auto-formatting hyphens).
- "Confirm Account Number" numeric input (must match).

- "Account Type" radio buttons: Savings / Current.
 - IBAN optional field (auto-populates from bank code + account number if selected).
 - Bottom button: **"Save Account"**.
-

1.9 PHASE 9 — WORKER PROFILE & SETTINGS

9.1 Worker Profile Tab (bottom nav)

- **Top:** circular profile photo, name (bold), rating stars below name, small "X jobs completed" subtext, pencil "Edit" icon inline-right of the name.
- **Body, settings rows with chevrons:**
 - My Portfolio
 - Ratings & Reviews
 - Skills & Certifications
 - My Rates & Availability
 - Bank Accounts
 - Notification Preferences
 - Language
 - Emergency Contacts
 - Contact Support
 - Account Settings
 - Logout
 - Delete Account (small, low-emphasis text link at bottom).

9.2 Edit Profile Screen

- Photo edit (same as customer: tap to upload new photo, crop tool, remove option).
- Full Name input (editable).
- Phone Number input (editable).
- Gender pill buttons.
- Date of Birth (editable).
- Service area city (editable dropdown).
- Bottom button: **"Save Changes"**.

9.3 My Portfolio Screen

- **Top Bar:** heading "My Portfolio", add icon "+" top-right (opens upload modal).
 - **Body:** grid of photo/video thumbnails (3 columns on mobile, each square tile).
Video thumbnails have a small play-icon overlay.
Tap any thumbnail to expand full-screen gallery with swipe navigation or to open edit/delete options (pinch, long-press, or delete icon overlay).
 - **Upload modal** (triggered by + icon):
 - "Add before/after photos of your completed work" instruction text.
-

- Drag/drop area or tap to choose from gallery.
- Multi-select allowed, upload queue shown as small thumbnail tiles with progress bars.
- Once uploaded, each photo can have a caption/description field (optional):
"Rewired kitchen for new customer"
→ tap to add caption.
- Bottom button: **"Done"**.
- **States:**
 - Empty portfolio: centered illustration (empty photo frame), text "Add photos to show off your work!" with the "+ Add Photos" CTA button.
 - Photos with captions: each thumbnail in the grid can show a small caption overlay (fade in on hover/tap), small "i" info icon overlay top-right of each photo.

9.4 Ratings & Reviews Screen

- **Top bar:** heading "Ratings & Reviews", filter icon top-right.
- **Stats card** (sticky, floats at top):
 - Large star rating centered: "4.8 star" with "236 reviews" subtext.
 - Breakdown bar chart below: 5 star (green bar) 95%, 4 star (light green) 5%, 3 star (yellow) 0%, etc.
- **Filter chip row** below stats:
"All" / "5 star" / "4 star" / "3 star" / "Recent" / "Oldest".
- **Review list** (each row/card):
 - Customer initial-avatar circle left, customer name + star rating (e.g. ""), date (small grey) right-aligned.
 - Review text (2–3 lines max, expandable tap-to-read-more link if longer).
 - Small job-type tag: "Plumbing Repair".
 - If photo attached by customer: small thumbnail inline-right of review text.
 - Tap row to expand/collapse full review.

9.5 Skills & Certifications Screen

- **Top bar:** heading "Skills & Certifications", edit icon pencil top-right (enable edit mode).
- **Body:**
 1. Service categories section (collapsible/expandable per category):
 - "Electrician" heading with chevron.
 - Selected skills pills/tags below: "Wiring", "AC Repair", "Solar Installation" (each tag has an "X" delete icon in edit mode, hidden in view mode).
 2. Certifications section below:
 - Each certification displayed as a small card: certificate name (bold), issuing authority, issue/expiry dates, small "X" delete icon edit mode, tap card to view full certificate details/gallery.
 - "+ Add Certification" button at bottom of section (edit mode only).
- **In edit mode:** "Save Changes" button appears at bottom; cancel also available.

9.6 My Rates & Availability Screen

- **Top bar:** heading "My Rates & Availability", edit icon top-right (enable edit mode).
- **Body:**
 1. **Rates section** (per service category):
 - "Electrician" heading.
 - "Hourly Rate: Rs. 500" (edit mode: text input appears, "Rs." prefix locked).
 - "Minimum Call-Out: Rs. 300".
 2. **Availability section:**
 - Toggle switch: "I'm currently available" (on/off, this is the master switch — same as the floating toggle on home screen).
 - Below toggle: collapsible "Set Working Hours" section (expand if on):
 - 7 day rows (Mon-Sun), each with toggle (enable/disable that day), start time picker, end time picker.
 - "Copy to all days" checkbox at bottom.
 - Service radius slider: "Accept jobs within 15 km".
 3. **Live Status** indicator (always visible, non-edit mode):
 - Green dot + "Currently Online"
/
Grey dot + "Currently Offline"
(reflects real-time online/offline state).
- **Edit mode:** "Save Changes" button at bottom; auto-saves if any change made.

9.7 Bank Accounts Screen

- List of saved bank accounts, each row:
 - Bank name, account type (Savings/Current), last 4 digits (****2891), primary/default label (if applicable).
 - Delete "X" icon inline-right.
 - Tap to view full details or edit.
- "+ Add New Bank Account" button at bottom (navigates to 8.4).

9.8 Notification Preferences Screen

- List of toggle switches:
 - Job Alerts (on by default, controls whether new job offers send notifications).
 - Chat Messages (on).
 - Ratings (on, notifies when customer rates).
 - Payment Notifications (on, notifies when money released).
 - Promotions & Tips (off by default, opt-in for tips/earning strategies).
 - In-App Notifications (on, notifies within the app even if push disabled).
 - Sound (on, controls notification sound).
 - Vibration (on, controls haptic feedback).

9.9 Language Settings Screen

- Same grid layout as customer: 2-column grid of language cards (Urdu, English, Punjabi, Pashto, Sindhi) with flag icons, single-select, "Continue" button.

9.10 Emergency Contacts Screen

- Identical to customer 13.4: list of contacts (name, phone, relationship), add new, toggle for "Alert local authorities during SOS".
-

1.10 PHASE 10 — SAFETY FEATURES FOR WORKERS

10.1 Persistent SOS Button

- Appears as small circular red icon (siren/exclamation mark), fixed in consistent corner (bottom-right, floating above content but below bottom nav) on:
 - Chat screen,
 - Active Job screen,
 - Arrived at Job screen,
 - Job In Progress screen.
- NOT shown on browsing screens (Home, Jobs list) to avoid accidental overuse.

10.2 SOS Activation Screen

- Full-screen red-tinted overlay, centered:
 - Large siren icon, heading "Emergency Alert".
 - Subtext: "Alert emergency contacts immediately".
 - **Slide-to-confirm bar** (not a tap button — prevents accidents): "Slide to Alert" with arrow handle that must be dragged fully right.
 - Small text link below: "Cancel" (returns without alerting).

10.3 SOS Active Screen

- Heading "Help Is On The Way", subtext "Alerting your emergency contacts...".
- Status list:
 - ✓ "Location shared with emergency contacts".
 - ✓ "Support team notified".
 - "Pending" "Contacting local authorities (where available)".
- Large centered map showing worker's live GPS location.
- **Large red button:** "I'm Safe Now - Cancel Alert" (requires secondary confirmation tap: "Are you sure? This will notify your contacts you're safe.").

10.4 Number Masking (background, UI representation)

- On Chat and Call screens, no actual customer phone number is ever displayed in the UI.
- Small lock icon + tooltip text "Customer's number is private" visible if user taps an info "i" icon near call button.
- Call always routes through masked proxy number automatically.

10.5 Customer Verification Badge (trust signal)

- Blue checkmark badge visible next to customer names on:
 - Job detail card (Phase 5.1).
 - Chat screen header.
 - Active job screen (6.1).
 - Tap badge to see tooltip: "This customer's identity has been verified by Mazdoor."

10.6 Blocked Customers / Job Refusal Log

- Settings screen link: "Blocked Customers" → list of customers you've blocked (name, reason, unblock option).
Or "Your Job Refusals" → list of jobs you've declined, with reasons, dates.

1.11 PHASE 11 — DISPUTES & CANCELLATIONS

11.1 Cancel Job (Worker-Initiated)

- Worker taps "Cancel Job" link on Active Job screen (6.1, 6.2, or 6.3):
 - Modal slides up: "Cancel this job?"
 - Warning text: "Cancelling now may affect your rating and job acceptance rate. If you cancel within 15 mins of start time, you may be penalized."
 - Dropdown: "Reason for cancellation" (Emergency / Health Issue / Difficult Customer / Other).
 - Text box: "Add details (optional)".
 - Two buttons: outlined "**Keep Job**" / red filled "**Confirm Cancellation**".
 - On confirm: customer gets notified, worker status updates, job returns to available queue.

11.2 Dispute Raised by Customer

- **Push notification:** "[Customer Name] raised a dispute for your [job type] job".
- **In-app modal/card** slides up:
 - heading "Dispute Raised",
 - brief customer complaint summary (poor quality, no-show, etc.),
 - customer's photo evidence thumbnail (if attached).
- Action buttons: "**View Full Details**" / "**Close**".

11.3 Dispute Detail Screen

- **Top bar:** heading "Dispute: [Job Type]", date.
- **Body:**
 1. Customer's complaint: category, description, attached photos/videos (expand gallery on tap).
 2. **Worker Response section** (initially empty, add button at bottom):
 - If no response yet: "Add Your Response" heading + button → opens response form (text box, photo upload option).
 - If response exists: response text displayed, edit/delete options (if within response window).
 3. **Support Intervention section:**
 - If support team has reviewed: status ("Under Review" / "Resolved"), support agent's notes, resolution (refund issued, no refund warranted, etc.), timestamp.
 4. **Appeal** button (if customer/worker disagrees with resolution).
- **Bottom:** "Submit Response" button (if in response-entry mode), or "View Ticket Status" link (to support tickets, Phase 12.3).

11.4 Refund / Dispute Resolution Notification

- Push notification:
 "Dispute resolved: Rs. 500 refunded to [customer name]'s wallet."
 or
 "Dispute resolved in your favor: Rs. 1000 retained in your account."
- Notification detail: reason for ruling, appeal deadline (usually 7 days), appeal process link.

1.12 PHASE 12 — JOBS HISTORY & ANALYTICS

12.1 Jobs Tab (bottom nav)

- **Top bar:** heading "Jobs Available", with a filter icon top-right and a sort/grid-view toggle icon next to it.
- **Tab row** below top bar:
 "Available" (default) / "Saved" / "Completed" / "Cancelled".
- **Filter row** (horizontally scrollable chips):
 Category, Rating Min, Distance, Urgency.
- Job cards list (same format as home 4.1, but this is dedicated view for browsing without the active job counter etc.).

12.2 Saved Jobs Screen

- Jobs the worker has tapped a heart icon to "save for later" but not accepted yet.
- Same card format as available jobs, but with a filled-heart icon on each card.
- Tap "Accept" button to proceed to acceptance flow (5.2–5.3).

12.3 Completed Jobs Screen (History)

- **Tab row:** "Completed" (active) / "Cancelled".
- List of past jobs, each card shows:
 - Customer name, service type, date completed, duration/time spent ("1 hour 22 mins").
 - Star rating received (if customer rated), amount earned, status pill (Paid/Pending/Disputed).
 - Tap to open job receipt/detail view (earning breakdown, customer review, etc.).

12.4 Analytics Dashboard (Optional Premium Feature)

- Accessed via a link in settings or a "View Analytics" button on earnings tab.
- Cards/charts displaying:
 - Total jobs completed (this month, all-time).
 - Average earning per job.
 - Acceptance rate (%), cancellation rate (%).
 - Average rating trend (line chart over past 30 days).
 - Peak earning hours (bar chart: weekday mornings vs evenings, weekends, etc.).
 - Service demand heatmap (which zones/times have most requests).
 - Customer feedback sentiment (word cloud of common review words).
- Filters: time period (This Week / This Month / Last 3 Months / All Time), service category.

1.13 PHASE 13 — WORKER SUBSCRIPTION / PREMIUM FEATURES

13.1 Worker Boost/Premium Screen

- **Top bar:** heading "Mazdoor Pro", "Unlock Premium Features" subtext.
- **Body:** comparison card layout (similar to customer Mazdoor Plus):
 - "Standard" (free) vs "Mazdoor Pro — Rs. X/month" (highlighted with "Popular" badge).
 - Feature checklist for each tier:
 - Standard: Access to all jobs, basic support.
 - Pro: Priority job access, job recommendations AI, analytics dashboard, background removal on photos, customer lead filtering (blacklist/whitelist), advance earnings statement.
 - Pro tier card has a colored border and emphasis.
- **Bottom:** primary button "Subscribe Now" (on Pro card).

13.2 Subscribe & Payment Screen

- **Top bar:** back arrow left, heading "Subscribe to Mazdoor Pro".
- **Body:**
 1. Subscription plan selection:
 - "Monthly (Rs. 299)" or "Quarterly (Rs. 749)" or "Annual (Rs. 2,499)"
 - radio buttons, quarterly/annual pre-selected as default with a "Save 15%" badge.
 2. Payment method selector (same style as customer payment 10.1):
 - bank transfer, card, JazzCash, Easypaisa.

3. Summary card: plan name, duration, price, taxes (if applicable), total.

- **Bottom:** primary button **"Complete Subscription"**.

13.3 Subscription Active Screen

- Checkmark animation, "Welcome to Mazdoor Pro!", summary card showing subscription details + renewal date.
- Button: **"Got It"** → returns to home screen, a new "Pro" badge now appears next to worker's name on their profile and job cards.

1.14 PHASE 14 — COMMUNICATION (WORKER SIDE)

14.1 Chat Screen (with Customer)

- Identical layout to customer 8.1:
 - **Top bar:** back arrow left, customer's small circular photo + name + rating centered, call icon top-right, overflow menu far right (View Profile / Report / Block).
 - **Body:** message thread, customer messages left (grey bubble), worker messages right (colored bubble), timestamps, typing indicator (3 animated dots).
 - **Quick-reply chips** (floats above input bar, horizontally scrollable):
 - "Running late",
 - "Arrived at location",
 - "Starting work now",
 - "Almost done".
 - **Input bar:** attachment/camera icon left, text input placeholder, location-pin icon + send icon (paper plane) right.
- **States:**
 - Before job starts: chat available, location not shared yet (stated in small info banner: "Your location is hidden until you accept").
 - Job accepted: location visible to customer, status updates auto-send (e.g. "Worker Mark is on the way").
 - Job complete: chat remains open for post-completion communication (receipt details, follow-ups, etc.).

14.2 Call Screen

- Masked number via proxy (same as customer experience).
- Native dialer UI launches, worker's real number is hidden from customer.

1.15 PHASE 15 — NOTIFICATIONS & PUSH STRATEGY

15.1 Notification Center (Worker)

- Accessed via bell icon on home top bar.
- List of notification rows:
 - Small category icon left (briefcase for new job, star for rating, wallet for payment, warning for dispute, etc.).
 - Bold title, grey preview subtext, timestamp right-aligned.
 - Unread rows have a colored dot inline-left of the icon.
- Tapping any notification navigates to the relevant screen (job detail, rating, earnings, dispute, etc.).

15.2 Notification Types (Samples)

- **New Job Alerts:** "New job in DHA: Fix leaking tap, Rs. 500" (high-priority, vibration + sound).
- **Job Accepted Confirmation:** "You accepted John's plumbing job for 3:00 PM today".
- **Customer Approaching:** "Customer is 5 minutes away" (if customer is arriving early for scheduled job).
- **Rating Received:** "Ahmed rated you 5 star for today's electrician job!"
- **Earnings Credited:** "Rs. 800 added to your wallet from John's job".
- **Performance Alert:** "Your acceptance rate dropped to 88%. Keep it above 90% to stay eligible for premium jobs."
- **Promotional:** "Earn 2x during tonight's rush hours (7–9 PM)! Get Rs. 1,600 for each job." (if opt-in).

1.16 PHASE 16 — HELP & SUPPORT (WORKER)

16.1 Support/Help Center Screen

- Accessed via settings or dedicated button.
- Search bar top: "Search for help".
- FAQ category tiles grid:
 - "Jobs & Acceptance",
 - "Payments & Withdrawals",
 - "Ratings & Performance",
 - "Safety",
 - "Account & Profile",
 - "Disputes".
- **"Chat with Support"** button fixed at bottom, opens in-app messaging with support agent, queue indicator "Wait time: approximately 2 mins".
- Common quick options chat chips above agent input:
 - "Payment Issue",
 - "Missing Rating",
 - "Customer Complaint",
 - "Other".

16.2 Support Chat Screen

- Standard chat UI, but with support bot first-response (flow chart: select issue type → bot gives instant FAQ link or offers to escalate to human agent).
- Tap to escalate → wait for human agent → agent joins chat thread.

1.17 PHASE 17 — WORKER ONBOARDING VERIFICATION STATUS

17.1 Verification Status Dashboard (In Profile)

- Small banner/card in profile tab showing CNIC verification status:
 - ✓ "CNIC Verified" (green, if approved).
 - "Pending" "CNIC Verification Pending" (yellow/orange, if under review).
 - × "CNIC Verification Failed" (red, with "Retry" button if rejected).
- Police clearance status (if applicable):
 - ✓ "Police Clearance Submitted"
 - /
 - "Pending"
 - /
 - × "Not Submitted"
 - (with info: "Submit to unlock [sensitive category] jobs").

1.18 PHASE 18 — PREMIUM FEATURES: JOB RECOMMENDATIONS & AI

18.1 Smart Job Recommendations (Pro Feature)

- **"Recommended for You" section** appears on Home screen (4.1) for Pro subscribers.
- Above the general "Available Jobs Near You" section, a subsection: "AI Picked for Your Skills" showing 2–3 job cards filtered by:
 - Worker's primary skills (e.g., if skilled in AC repair and high-rated, AC jobs appear first).
 - High-tipping customer profiles.
 - Premium/high-paying jobs (surge pricing, rush jobs).
- Tap any recommended job to open detail (same flow as 5.1–5.3).

18.2 Customer Preference Filters (Pro Feature)

- Settings link: **"Manage Job Preferences"** → opens a screen where Pro workers can:
 - Whitelist/Blacklist specific customers by name (e.g. "Avoid jobs from [Customer X]").
 - Minimum earning threshold filter (e.g. "Only show jobs paying Rs. 500+").
 - Distance limit refinement (e.g. "Only within 5 km").
 - Job type preferences (e.g. "Prioritize emergency jobs over scheduled").
 - Once configured, job queue auto-filters to match these preferences.

1.19 PHASE 19 — PROMOTIONAL & EARNING BOOSTS

19.1 Surge Pricing / Rush Hour Alerts

- Push notification during peak demand times:
"2x earnings surge in your area! 7–9 PM tonight. Accept jobs now to earn more!"
- **"Discover" section** on home screen (or a separate tab within Earnings): shows real-time surge zones/times on a map.
 - Interactive map with colored zones (red = 2x surge, orange = 1.5x, green = normal).
 - Small info card below map: "DHA Phase 5 — 2x surge until 9 PM", countdown timer, "Go Online" button.

19.2 Achievement Badges / Gamification

- **Achievements screen** (in profile or dedicated section):
 - "Top Rated" badge (first 4.8+ star rating earned).
 - "Speed Demon" badge (completed 10 jobs within 24 hours).
 - "Trusted Pro" badge (500+ jobs completed).
 - "Perfect Week" badge (7 days without cancellations).
 - "Early Bird" badge (accepted 5 jobs before 8 AM).
 - Badges appear on worker's public profile, on job cards, increases customer trust.

End of worker-side detailed spec.

This covers all job acceptance flows, payment management, safety, communication, ratings, and premium/gamification features.

1.20 CROSS-CUTTING NOTES

Offline Capability (both sides)

- Critical cached data (active jobs, booking details, customer contact info, safety protocols) stored locally.
- Workers can view job details, contact info, and directions even if connectivity drops temporarily.
- Payment processing requires online connection; queued for retry if offline.

Accessibility (both sides)

- Audio prompts for low-literacy support (workers navigating availability, customers reading reviews, etc.).
- Large touch targets (48px minimum tap area per WCAG guidelines).
- High contrast for text/buttons (WCAG AA or AAA compliance).
- Icon+text labels (never icon-only on primary actions).

Internationalization/Localization (both sides)

- All screens support Urdu, English, Punjabi, Pashto, Sindhi with full text + audio prompts.
- Date/time formatting per region (24-hour time in Pakistan).
- Currency always in PKR with Rs. symbol, no decimals for job pricing (jobs posted in whole rupees).
- Phone numbers auto-format with +92 country code.

Security & Privacy (both sides)

- Number masking: proxy numbers for all calls between customer and worker.
- Location privacy: customer location hidden from worker until job accepted, worker location hidden from customer until worker marks "arrived".
- CNIC data encrypted at rest and in transit (TLS 1.3+).
- PII (personally identifiable info) never logged in plain text in server logs.
- Firebase/Twilio for phone OTP and masking (industry-standard, compliant with Pakistan telecom regulations).
