

Mazdoor App

Customer Side

Full Page-Level UX & Functional Specification

Every screen is broken into:

**Top Bar → Body (top to bottom, left to right) →
Bottom Bar/Buttons → States → Interactions.**

Icon positions are described exactly (top-left, top-right, floating, inline-left of text, etc.) so this can go straight to a designer/developer.

Customer-Side Product Specification

Prepared as an Overleaf-ready technical specification

Contents

1	PHASE 1 — LAUNCH	3
1.1	1.1 Splash Screen	3
1.2	1.2 Language Selection Screen	3
1.3	1.3 Location Permission Pre-Ask Screen	3
1.4	1.4 Notification Permission Pre-Ask Screen	3
2	PHASE 2 — REGISTRATION	3
2.1	2.1 Auth Choice Screen (Sign Up / Log In entry point)	3
2.2	2.2 OTP Verification Screen	4
2.3	2.3 Set Password Screen (phone signups only)	4
2.4	2.4 Basic Profile Details Screen	5
2.5	2.5 Address Setup Screen	5
2.6	2.6 Terms & Consent Screen	5
3	PHASE 3 — LOGIN	6
3.1	3.1 Login Screen	6
3.2	3.2 Forgot Password Flow	6
3.3	3.3 Biometric Prompt (post first login only, one-time)	6
4	PHASE 4 — HOME SCREEN	6
4.1	4.1 Home Screen	6
4.2	4.2 Address Switcher Bottom Sheet	7
4.3	4.3 Full Category List Screen	7
5	PHASE 5 — MAP & SEARCH	7
5.1	5.1 Full Map Screen	7
5.2	5.2 Voice Search Interaction (overlay, not a full screen)	8
6	PHASE 6 — WORKER PROFILE	8
6.1	6.1 Worker Profile Screen	8
6.2	6.2 Full Reviews Screen	9
7	PHASE 7 — BOOKING	9
7.1	7.1 Booking Type Selection Screen	9
7.2	7.2A Hire Now Flow	9
	7.2.1 Screen 1 — Job Details	9
	7.2.2 Screen 2 — Searching (loading state)	9
	7.2.3 Screen 3 — Worker Assigned	9
7.3	7.2B Schedule for Later Flow	9
	7.3.1 Screen 1 — Date & Time	10
	7.3.2 Screen 2 — Job Details	10
	7.3.3 Screen 3 — Booking Summary	10
	7.3.4 Screen 4 — Confirmed	10
7.4	7.2C Post a Job (Bidding) Flow	10
	7.4.1 Screen 1 — Job Form	10
	7.4.2 Screen 2 — My Posted Jobs List	10
	7.4.3 Screen 3 — Bid Comparison Dashboard	10
8	PHASE 8 — COMMUNICATION	11
8.1	8.1 Chat Screen	11
8.2	8.2 Masked Call Screen	11

9	PHASE 9 — LIVE TRACKING & JOB PROGRESS	11
9.1	9.1 Live Tracking Screen	11
9.2	9.2 Job In Progress Screen	11
9.3	9.3 Milestone Approval Modal	12
10	PHASE 10 — PAYMENT & WALLET (Detailed)	12
10.1	10.1 Payment Method Selection Screen	12
10.2	10.2 Add Card Screen	12
10.3	10.3 Escrow Confirmation Screen	12
10.4	10.4 Payment Processing (loading state)	12
10.5	10.5 Payment Success Screen	13
10.6	10.6 Wallet Screen (bottom nav tab)	13
10.7	10.7 Add Money to Wallet Screen	13
11	PHASE 11 — COMPLETION & RATING	13
11.1	11.1 Job Completion Confirmation Screen	13
11.2	11.2 Rating & Review Screen	13
11.3	11.3 Tip Screen (optional, shown after rating submit)	14
11.4	11.4 Thank You / Job Complete Screen	14
12	PHASE 12 — POST-SERVICE	14
12.1	12.1 Booking History Screen (under Bookings nav tab)	14
12.2	12.2 Raise a Dispute Flow	14
	12.2.1 Screen 1 — Issue Category	14
	12.2.2 Screen 2 — Details	14
	12.2.3 Screen 3 — Confirmation	15
12.3	12.3 Support Tickets Screen	15
13	PHASE 13 — SAFETY FEATURES (Detailed)	15
13.1	13.1 Persistent SOS Button	15
13.2	13.2 SOS Activation Screen	15
13.3	13.3 SOS Active Screen	15
13.4	13.4 Emergency Contacts Setup Screen (in Settings)	15
13.5	13.5 Number Masking (background feature, visible as UI state)	16
13.6	13.6 CNIC/Verification Badge Visibility (customer-facing trust signal)	16
14	PHASE 14 — PROFILE & SETTINGS	16
14.1	14.1 Profile Tab Root Screen (bottom nav)	16
14.2	14.2 Saved Addresses Screen	16
14.3	14.3 Notification Preferences Screen	16
14.4	14.4 Language Settings Screen	17
15	PHASE 15 — NOTIFICATIONS, REFERRAL, SUBSCRIPTION	17
15.1	15.1 Notification Center Screen	17
15.2	15.2 Refer & Earn Screen	17
15.3	15.3 Mazdoor Plus (Subscription) Screen	17
16	PHASE 16 — HELP CENTER	17
16.1	16.1 Help Center Screen	17

1 PHASE 1 — LAUNCH

1.1 1.1 Splash Screen

Body: Center — app logo (animated fade+scale in, 0.6s), directly below it centered tagline text “Find Trusted Help, Instantly” in smaller font.

Bottom: thin progress bar or 3-dot loader, centered, 40px above screen bottom edge.

No buttons. Auto-navigates after 2s or once auth token check completes.

State: if a valid session token exists → skips straight to Home Screen (4.1). If none → Language Selection.

1.2 1.2 Language Selection Screen

Top Bar: none (no back button — first screen).

Body: Centered heading “Choose Your Language” top third of screen. Below it, a **2-column grid** of language cards (Urdu, English, Punjabi, Pashto, Sindhi) — each card has a small flag/script icon top-left of the card, language name centered, selected state = green border + checkmark icon top-right corner of card.

Bottom: Full-width primary button “**Continue**” (disabled/greyed until one language selected), 24px above screen edge.

Interaction: Tap a card → instantly re-renders all future screen text/audio in that language → Continue enables.

1.3 1.3 Location Permission Pre-Ask Screen

Body: Center illustration (map pin icon, large, animated pulse). Below: heading “Enable Location” + subtext “We use your location to show workers near you.”

Bottom: two stacked buttons — primary “**Allow Location Access**” (full width), secondary text-only link below it “**Not Now**” (no border, grey text).

Interaction: Allow → triggers native OS permission dialog → Not Now → skips to 1.4, and a persistent small banner appears later on Home Screen: “Turn on location for better results” with an inline “Enable” link.

1.4 1.4 Notification Permission Pre-Ask Screen

Same layout pattern as 1.3. Bell icon illustration center. Buttons: “**Enable Notifications**” / “**Skip**”.

2 PHASE 2 — REGISTRATION

2.1 2.1 Auth Choice Screen (Sign Up / Log In entry point)

Top Bar: none, status bar only.

Body, top to bottom:

1. App logo, small, top-center, 32px from top
2. Heading centered: “Get Started”

3. **Google button** — full width, white background, grey border, Google “G” icon inline-left inside button, text “Continue with Google” centered
4. **Facebook button** — directly below, full width, Facebook-blue background, “f” icon inline-left, text “Continue with Facebook” (white text)
5. Horizontal divider line with centered small text “OR” on a white circle breaking the line
6. Phone number input field — country code prefix “+92” fixed/non-editable on the left inside the field, placeholder text “3XX XXXXXXXX”, numeric keyboard triggers on tap
7. Primary button “**Send OTP**” directly below field, full width, disabled until 10 digits entered

Bottom (fixed footer): small centered text: “Already have an account? **Log In**” (Log In is a tappable link, different color)

Interaction: Google/Facebook tap → OAuth webview modal slides up from bottom → on success closes modal and auto-navigates to 2.6 (Basic Profile) with name/email/photo pre-filled and greyed-out (non-editable) fields for the pre-filled ones.

2.2 2.2 OTP Verification Screen

Top Bar: left — back arrow icon (returns to 2.1, phone number preserved).

Body:

1. Heading: “Verify Your Number”
2. Subtext: “Enter the 6-digit code sent to +92 3XX XXXXXXXX”
3. 6 individual boxed input cells, centered horizontally, auto-focus first cell, auto-advances cursor to next cell per digit typed, auto-submits when 6th digit entered (no manual submit button needed)
4. Below the cells, centered: countdown text “Resend code in 0:30” — becomes tappable blue link “**Resend Code**” once timer hits 0
5. Below that, centered small link: “**Change Number**” (returns to 2.1)

States:

- Wrong code → all 6 cells flash red border briefly (shake animation), cells clear, cursor resets to cell 1, small red text appears below cells: “Incorrect code. Try again.”
- Correct code → green checkmark animation briefly overlays the cells, then auto-navigates forward.

2.3 2.3 Set Password Screen (phone signups only)

Top Bar: back arrow left.

Body:

1. Heading: “Create a Password”
2. Field 1: “Password” label above input, eye icon inline-right inside field to toggle visibility
3. Directly below: horizontal strength meter bar (red/yellow/green segments) that fills as user types, small label text to its right: “Weak” / “Medium” / “Strong”
4. Field 2: “Confirm Password” same eye-icon toggle
5. Small red inline error text appears below Field 2 if mismatch: “Passwords don’t match”

Bottom: primary button “**Continue**”, disabled until both fields match and meet min strength.

2.4 2.4 Basic Profile Details Screen

Top Bar: back arrow left, step indicator top-right (e.g., small text “Step 2 of 4” or dot progress indicator centered).

Body:

1. Circular profile photo placeholder, centered, top of body — default shows grey silhouette icon; small camera icon badge overlapping bottom-right corner of the circle (tap opens action sheet: “Take Photo” / “Choose from Gallery” / “Remove”)
2. “Full Name” input field, placeholder “e.g. Ahmed Khan”
3. “Email (optional)” input field, placeholder “you@example.com” — only shown if not already pulled from Google/Facebook
4. “Gender” — 3 selectable pill buttons inline: Male / Female / Prefer not to say (single-select, tapped pill fills with color)

Bottom: primary button “**Continue**”.

2.5 2.5 Address Setup Screen

Top Bar: back arrow left, “Skip” text link top-right.

Body:

1. Top half of screen: interactive map (GPS-centered), a fixed center-pin icon that stays visually centered while user drags the map underneath it (classic “drop pin” pattern), small “Locate Me” circular floating button bottom-right of the map (crosshair icon) to re-center on GPS
2. Below map: auto-filled address text line (from reverse geocoding), editable pencil icon inline-right of the text
3. “House/Flat/Floor No.” input field
4. “Area/Street” input field
5. “City” dropdown field, placeholder “Select City” (chevron-down icon inline-right)
6. “Label this address” — 3 pill options: Home / Work / Other

Bottom: primary button “**Save & Continue**”, secondary text link below “Add later” if skipped.

2.6 2.6 Terms & Consent Screen

Body: centered document/scroll icon, heading “Before You Continue”, body paragraph summary text, then a checkbox row: square checkbox left, text right “I agree to the **Terms of Service** and **Privacy Policy**” (both bolded words are tappable links opening in-app webview modal).

Bottom: primary button “**Agree & Continue**”, disabled/grey until checkbox ticked.

Interaction: Continue → account created → auto-navigates to Home Screen (4.1) with a one-time celebratory toast: “Welcome to Mazdoor, [Name]!”.

3 PHASE 3 — LOGIN

3.1 Login Screen

Identical layout to 2.1 but heading reads “Welcome Back” and bottom footer text reads “New here? **Sign Up**”.

If phone+password method used instead of OTP: after phone number, a password field appears (eye-toggle icon) with a right-aligned small link below it: “**Forgot Password?**”

3.2 Forgot Password Flow

1. **Enter Phone/Email screen** — single input field, button “Send Reset Code”
2. **OTP screen** — same as 2.2
3. **New Password screen** — same as 2.3 layout
4. **Success screen** — centered checkmark icon animation, heading “Password Updated”, button “Back to Login”

3.3 Biometric Prompt (post first login only, one-time)

Body: centered fingerprint/FaceID icon illustration, heading “Log in faster next time”, subtext.

Bottom: primary “**Enable**”, secondary text link “**Not Now**”.

Once enabled: future Login Screen (3.1) instead shows a centered fingerprint icon button with text “Tap to unlock” below the logo, bypassing OTP entry unless biometric fails 3x (then falls back to OTP).

4 PHASE 4 — HOME SCREEN

4.1 Home Screen

Top Bar (fixed, does not scroll):

- Left: location pin icon + current address label truncated (e.g. “DHA Phase 5, Lahore ↓”) — entire block tappable, opens Address Switcher bottom sheet
- Right side, two icons in a row: bell/notification icon (small red dot badge if unread items exist) then wallet icon showing balance as small text badge (e.g. “Rs.500”) next to it

Body, top to bottom:

1. Search bar — full width, rounded, magnifying-glass icon inline-left, placeholder text “What do you need help with?”, microphone icon inline-right inside the same bar
2. Category row — horizontally scrollable icon+label tiles: Plumber, Electrician, AC Repair, Cleaning, Painter, Carpenter, Appliance Repair, Beautician, Driver, Mover, then a final “More” tile with a grid icon that opens Full Category List screen
3. Promo banner carousel — full-width rounded cards, auto-scrolling every 4s, small dot-page-indicator centered below the carousel
4. “Near You” section header text, with small map-pin icon inline-left of the header text, and a “View Map” text link on the right side of the same row

5. Mini interactive map preview (non-full-screen, ~180px height) showing nearby worker pins; tapping it expands to full Map Screen (5.1)
6. Below map: horizontally scrollable worker cards (“Top Rated Near You”) — each card: worker photo top, name, rating with star icon inline, price, small “Available Now” green dot+label badge top-right corner of card

Bottom Nav Bar (fixed): 5 icons with labels beneath each: Home (house icon), Map (map-pin icon), Bookings (calendar icon, badge if active job), Wallet (wallet icon), Profile (person icon/photo thumbnail). Active tab is color-filled, others outlined/grey.

Floating Action Button: circular, bottom-right, positioned just above the bottom nav bar, “+” or briefcase icon, label on long-press “Post a Job” — tapping opens 7.3 (Post a Job form).

4.2 Address Switcher Bottom Sheet

Slides up from bottom, covering ~50% of screen. Heading “Select Address”. List of saved addresses, each row: label icon (home/work/other), address text, radio-select circle right side. Bottom of sheet: “+ Add New Address” row with a plus icon inline-left.

4.3 Full Category List Screen

Top Bar: back arrow left, search icon top-right.

Body: grid of all service categories (icon above label), scrollable, grouped under section headers like “Home Repairs”, “Cleaning & Care”, “Personal”, “Moving & Transport”.

5 PHASE 5 — MAP & SEARCH

5.1 Full Map Screen

Top Bar: back arrow left, search bar inline (same style as home), filter icon top-right (funnel icon, shows small dot badge if filters active)

Body: full-screen interactive map. Worker pins are small circular avatar-icons color-coded by category ring color. A toggle switch floating top-left of the map area: “Heatmap” on/off (shows demand density overlay when on).

Filter Chip Row (floats just below top bar, horizontally scrollable): “Category”, “Max Budget”, “Min Rating ★”, “Available Now” — each chip tap opens a small inline dropdown/slider popover directly under that chip (not a full new screen).

Floating buttons on map: bottom-right — circular “Locate Me” (crosshair icon) button; bottom-center — pill button “List View” toggling between map and scrollable list layout of the same results.

Pin tap: bottom sheet slides up ~30% of screen height (Quick View Card):

- Left: circular worker photo
- Right of photo: name (bold), star rating with star icon inline, distance text (“1.2 km away”), price text
- Top-right corner of the sheet: small green dot + “Available Now” text, or grey “Busy” badge
- Bottom row of the sheet: 3 equal-width icon buttons side by side — **Call** (phone icon),

Chat (speech-bubble icon), **View Profile** (arrow-forward icon, primary colored, wider than the other two)

- Small drag-handle bar at the very top-center of the sheet (visual affordance it's swipeable up to expand)

5.2 Voice Search Interaction (overlay, not a full screen)

Tapping the mic icon triggers a full-screen semi-transparent modal: centered large pulsing circular mic icon (animates with waveform bars reacting to voice input), below it live-transcribing text, and a small "X" close icon top-right of the modal.

Once speech ends: transcribed text appears as an editable chip at top of the search results screen with a small pencil icon inline-right to correct it, and results populate below automatically.

6 PHASE 6 — WORKER PROFILE

6.1 Worker Profile Screen

Top Bar: back arrow left, share icon top-right (share worker profile link), overflow "..." menu icon far right (Report Worker / Block).

Body, top to bottom:

1. Cover-style header: worker's largest portfolio photo as background banner (blurred), circular profile photo overlapping the bottom edge of the banner, centered
2. Name (bold, large) centered below photo, verified checkmark badge icon inline-right of name (blue circle with white check)
3. Star rating row centered: star icon + "4.8 (230 reviews)" text, tappable → jumps to reviews section
4. Job Success Score — horizontal circular/linear meter with percentage, small info "i" icon inline-right (tap opens tooltip explaining the score)
5. Badge row — horizontally scrollable small pill badges with icons: Top Rated, Fast Responder, 100+ Jobs, Verified Skill: AC Repair
6. Section header "Portfolio" — horizontally scrollable photo/video thumbnail gallery, video thumbnails have a small play-icon overlay centered on them; tapping any thumbnail opens full-screen gallery viewer with swipe-left/right navigation and an "X" close icon top-right
7. Section header "Pricing" — simple row: "Hourly Rate: Rs. X" / "Minimum Call-out: Rs. Y"
8. Section header "Reviews" — top 3 reviews shown by default, each review row: reviewer initial-avatar circle left, name + star rating + date on one line, review text below, small thumbnail if photo attached; "See all 230 reviews →" link at the bottom of this section

Bottom Bar (fixed, does not scroll): two buttons side by side — secondary/outlined "Message" button (speech-bubble icon inline-left) taking ~35% width, primary filled "Book Now" button taking ~65% width.

6.2 6.2 Full Reviews Screen

Top Bar: back arrow, heading “Reviews (230)”.

Body: filter chip row at top (All / 5★ / 4★ / With Photos / Most Recent), then a scrollable list of full reviews same row format as above.

7 PHASE 7 — BOOKING

7.1 7.1 Booking Type Selection Screen

Top Bar: back arrow, heading “How would you like to book?”

Body: 3 large stacked selectable cards, each with an icon top-left of the card, bold title, and one-line description:

1. [FAST] “**Hire Now**” — “Get the nearest available worker immediately”
2. [DATE] “**Schedule for Later**” — “Pick a date and time that works for you”
3. [POST] “**Post a Job & Get Bids**” — “Describe your task, let workers compete”

Tapping a card highlights it (colored border) and auto-navigates forward (no separate confirm button needed on this screen).

7.2 7.2A Hire Now Flow

7.2.1 Screen 1 — Job Details

Text box: “Describe what you need” placeholder, small mic icon inline-right inside the box for voice note, small camera icon below the box “Add Photo (optional)”

Bottom button: “Find Worker Now”

7.2.2 Screen 2 — Searching (loading state)

Centered radar/pulse animation around a map-pin icon, text “Searching nearby workers...”, small “Cancel Search” text link below the animation.

7.2.3 Screen 3 — Worker Assigned

Top: green checkmark banner “Worker Found!”

Worker mini-card (photo, name, rating) centered

ETA countdown, large, centered below the card, small clock icon inline-left of the ETA text

Live map showing worker icon (small car/bike/walking icon depending on transport mode) animating along the route toward the customer’s pin

Bottom bar: Call icon button, Chat icon button, and a red text link “Cancel Booking” (smaller, less prominent, below the icon row, requires confirmation dialog).

7.3 7.2B Schedule for Later Flow

7.3.1 Screen 1 — Date & Time

Horizontal scrollable calendar strip (next 14 days), selected date highlighted filled circle
Below it, time-slot chips in a grid: Morning (9-12), Afternoon (12-4), Evening (4-8), or a “Pick Exact Time” text link opening a native time-picker wheel
Bottom button: “Continue”

7.3.2 Screen 2 — Job Details

Same layout as 7.2A Screen 1.

7.3.3 Screen 3 — Booking Summary

Card layout: worker photo+name row, date/time row (calendar icon inline-left), address row (pin icon inline-left), estimated price row
Bottom button: “Confirm Booking”

7.3.4 Screen 4 — Confirmed

Checkmark animation, “Booking Confirmed” heading, summary card repeated, two buttons side by side: **“Add to Calendar”** (outline) and **“View Booking”** (filled)

7.4 7.2C Post a Job (Bidding) Flow

7.4.1 Screen 1 — Job Form

“Job Title” input field
“Category” dropdown field
“Description” multi-line text box
“Add Photos/Video” — row of small square upload tiles with a “+” tile at the end
“Budget Range” — dual-handle slider with Rs. min/max labels above the handles
“Preferred Timeline” — dropdown (ASAP / This Week / Flexible)
Bottom button: “Post Job”

7.4.2 Screen 2 — My Posted Jobs List

List of job cards, each showing title, status pill (top-right of card: “Awaiting Bids” grey / “3 Bids Received” blue / “Bid Accepted” green), posted date.

7.4.3 Screen 3 — Bid Comparison Dashboard

Top Bar: back arrow, job title as heading
Body: table/card list, one row per bidder: small photo circle left, name + star rating, bid price (bold, right-aligned), estimated completion time below name, small **“Accept Bid”** button right side of each row, “View Profile” text link below the price
Sort/filter row at top: chips for “Lowest Price”, “Highest Rated”, “Fastest”
Interaction: tapping “Accept Bid” opens a confirmation modal (“Accept [Name]’s bid of Rs.X?”) with Confirm/Cancel — on confirm, other bidders’ rows grey out with “Job Filled”

label, and flow proceeds to Payment (Phase 10) or direct to tracking depending on job type.

8 PHASE 8 — COMMUNICATION

8.1 8.1 Chat Screen

Top Bar: back arrow left, worker's small circular photo + name centered, call icon (phone) top-right, overflow "..." menu far right (View Profile / Report / Block)

Body: standard message bubble thread — customer messages right-aligned (colored bubble), worker messages left-aligned (grey bubble), small timestamp text under each bubble cluster, typing indicator (3 animated dots in a bubble) when worker is typing

Quick-reply chip row (floats just above the input bar, horizontally scrollable): "On my way?", "I'm at the gate", "Running late?"

Bottom input bar: camera/attachment icon inline-left inside the field, text input placeholder "Type a message...", location-pin icon and send icon (paper plane) inline-right.

8.2 8.2 Masked Call Screen

Standard native call UI is used (via proxy number), but before connecting, an in-app modal briefly shows: "Connecting your call — your number stays private" with worker's photo, then hands off to the device dialer.

9 PHASE 9 — LIVE TRACKING & JOB PROGRESS

9.1 9.1 Live Tracking Screen

Body: full-screen map, worker's moving icon animates along route, customer's destination pin fixed

Top overlay card (floats over map, top of screen): ETA large text, small clock icon inline-left, "Arriving in 8 mins" style copy

Bottom overlay card (floats over map, bottom, draggable up to expand): worker photo+name left, Call icon + Chat icon buttons right, below that a horizontal status timeline with 4 dots connected by a line: "Confirmed • On the Way • Arrived • Started" — completed steps filled/colored, upcoming steps grey outline

Small "Share Trip" text link (with an outward-arrow icon inline-left) near the bottom card — lets customer send live tracking link to a family member via WhatsApp/SMS.

9.2 9.2 Job In Progress Screen

Once worker marks "Started": card updates to show a large centered icon (tools/wrench), text "Job in progress", elapsed-time counter ticking up

For milestone-based jobs: a vertical checklist below — each milestone row has a circle-checkbox icon (empty/filled/checked states), milestone name, and once worker submits one: a small "Review" button appears inline-right of that row.

9.3 9.3 Milestone Approval Modal

Slides up as a card: heading “Milestone Submitted: Wall Preparation”, photo evidence thumbnail (tap to enlarge full-screen), two buttons side by side: outlined “**Raise Issue**” / filled green “**Approve & Release Payment**”.

10 PHASE 10 — PAYMENT & WALLET (Detailed)

10.1 10.1 Payment Method Selection Screen

Top Bar: back arrow, heading “Select Payment Method”

Body: vertical list of radio-button rows, each with the provider’s logo icon inline-left, name, and radio circle right-aligned:

- JazzCash
- Easypaisa
- NayaPay
- Debit/Credit Card
- Mazdoor Wallet (shows current balance as grey subtext under this row, e.g. “Balance: Rs.500”)
- Cash on Delivery

Below the list: text link with a “+” icon inline-left: “Add New Card”

Bottom button: “Continue”

10.2 10.2 Add Card Screen

Card number field (with card-brand icon that appears inline-right once digits identify Visa/Mastercard), Expiry field, CVV field (small lock icon inline-left of CVV label), Cardholder Name field

Bottom button: “Save Card”

10.3 10.3 Escrow Confirmation Screen

Icon: shield/lock illustration centered top

Heading: “Your Payment is Protected”

Body text: “Rs. X will be held securely and only released to [Worker Name] once you confirm the job is complete.”

Checkbox: “I understand and agree” + link “Learn how Escrow works”

Bottom button: “Pay Rs. X & Confirm”

10.4 10.4 Payment Processing (loading state)

Centered spinner, text “Processing your payment, please wait...”

10.5 10.5 Payment Success Screen

Large green checkmark animation, centered

“Payment Successful” heading

Amount (bold, large), Transaction ID (small grey text, copy icon inline-right to copy it)

Two icon buttons side by side below: **Download Receipt** (download icon) / **Share Receipt** (share icon)

Bottom button: “Done” (returns to Booking/Tracking screen)

10.6 10.6 Wallet Screen (bottom nav tab)

Top Bar: heading “Wallet”, no back arrow (it’s a nav tab root)

Body top section: large balance card, full width, colored background — “Rs. 500” large centered text, small subtext “Available Balance” below it. Two buttons inside/below this card, side by side: “**Add Money**” (plus icon inline-left) / “**Withdraw**” (bank icon inline-left — greyed out/disabled with tooltip “Refunds only” since customers generally don’t withdraw, only receive refunds here)

Below the balance card: filter chip row — “All”, “Payments”, “Refunds”, “Top-ups”

Transaction list: each row — icon left (down-arrow green circle for money in, up-arrow red circle for money out), description text (“Payment to Ahmed - Plumbing”), date/time small grey subtext below, amount right-aligned (green “+Rs.200” or red “-Rs.500”)

Tapping a transaction row expands/navigates to a Transaction Detail screen (amount, date, payment method used, related booking link, receipt download icon).

10.7 10.7 Add Money to Wallet Screen

Numeric keypad-style large amount display top, preset amount chips below it (Rs.500 / 1000 / 2000 / Custom), payment method selector same style as 10.1

Bottom button: “Add Rs. X”

11 PHASE 11 — COMPLETION & RATING

11.1 11.1 Job Completion Confirmation Screen

Centered illustration (checklist/checkmark), heading “Has the job been completed?”

Two large buttons side by side: “**Yes, All Done**” (green, filled) / “**No, There’s an Issue**” (outlined, red text)

“Yes” → releases escrow automatically and proceeds to 11.2. “No” → routes to Dispute Flow (12.2).

11.2 11.2 Rating & Review Screen

Worker’s photo centered top, name below it

Row of 5 star icons, centered, large, tappable (fill left-to-right on tap/drag)

Tag chip grid below stars (multi-select): “Punctual”, “Professional”, “Great Value”, “Clean Work”, “Needs Improvement”, “Overpriced” (available tags may shift based on star rating)

given — negative tags surface more prominently on low ratings)

Text box: “Write a review (optional)” placeholder

Small camera icon button: “Add photo of completed work”

Bottom button: “Submit Review”, small text link below it “Skip for now”

11.3 11.3 Tip Screen (optional, shown after rating submit)

Worker photo small, centered, heading “Add a tip for [Name]?”

Row of preset amount chips: Rs.100 / Rs.200 / Rs.500 / “Custom” (opens numeric input)

Bottom button: “Send Tip”, text link below: “No thanks”

11.4 11.4 Thank You / Job Complete Screen

Confetti animation, heading “All Done!” small summary card, button “Back to Home”, secondary text link “Book This Worker Again”

12 PHASE 12 — POST-SERVICE

12.1 12.1 Booking History Screen (under Bookings nav tab)

Top Bar: heading “My Bookings”, filter icon top-right

Tab row below top bar: “Active” / “Completed” / “Cancelled”

Each booking card: worker photo left, service name + date, status pill top-right of card (color-coded: green Completed, blue Active/In Progress, red Cancelled, orange Disputed), price bottom-right

Tapping a card opens Booking Detail screen (full summary, receipt, “Book Again” and “Report an Issue” buttons).

12.2 12.2 Raise a Dispute Flow

12.2.1 Screen 1 — Issue Category

Grid of selectable issue-type cards with icons: Poor Quality, No Show, Overcharged, Damage Caused, Other

12.2.2 Screen 2 — Details

Text box “Describe what happened”, photo/video upload tiles row (required for Damage category, optional for others, small red asterisk indicates required)

Bottom button: “Submit Complaint”

12.2.3 Screen 3 — Confirmation

Checkmark icon, “Ticket #1234 Created”, text “Our team will respond within 24 hours”, button “View Ticket Status”

12.3 12.3 Support Tickets Screen

List of past/active tickets, each row: ticket number, short issue description, status pill (Open/In Review/Resolved), date
Tapping opens a chat-style thread with support agent replies.

13 PHASE 13 — SAFETY FEATURES (Detailed)

13.1 13.1 Persistent SOS Button

Appears as a small circular red icon (exclamation mark or siren icon) fixed in a consistent corner (commonly bottom-right, floating above other content but below the bottom nav) on: Chat screen, Live Tracking screen, Job In Progress screen. Not shown on browsing screens (Home, Search) to avoid accidental overuse/desensitization.

13.2 13.2 SOS Activation Screen

Tapping the SOS icon opens a full-screen red-tinted overlay
Centered: large siren/alert icon, heading “Emergency Alert”
A horizontal **slide-to-confirm** bar (not a simple tap button — prevents accidental triggers): track says “Slide to Alert” with an arrow-icon handle that must be dragged fully right
Small text link below the slider: “Cancel” (returns to previous screen, no alert sent)

13.3 13.3 SOS Active Screen

Heading “Help Is On The Way” / “Alerting your contacts...”
Status list showing checkmarks appearing sequentially: “Location shared with emergency contacts”, “Support team notified”, “Contacting local authorities” (where supported)
Live map showing customer’s current location pin
Large button: “**I’m Safe Now - Cancel Alert**” (requires a secondary confirmation tap: “Are you sure? This will notify your contacts you’re safe.”)

13.4 13.4 Emergency Contacts Setup Screen (in Settings)

List of added contacts, each row: name, phone number, relationship tag, delete “X” icon inline-right
“+ Add Emergency Contact” row at bottom — opens a form: Name field, Phone field, Relationship dropdown (Family/Friend/Other)
Toggle switch: “Also alert local authorities during SOS (where available)”

13.5 13.5 Number Masking (background feature, visible as UI state)

On the Chat and Call screens, no raw phone number is ever displayed anywhere in the UI — call icon always routes through the masked proxy number automatically, with a small lock icon + tooltip text “Your number is private” visible if the user taps an info “i” icon near the call button.

13.6 13.6 CNIC/Verification Badge Visibility (customer-facing trust signal)

Blue verified checkmark badge shown consistently next to worker names across: Map quick-view card, Worker Profile screen, Chat header, Booking confirmation card. Tapping the badge opens a small tooltip: “This worker’s CNIC and identity have been verified by Mazdoor.”

14 PHASE 14 — PROFILE & SETTINGS

14.1 14.1 Profile Tab Root Screen (bottom nav)

Top: circular profile photo (tap to edit), name, phone number/email below it, small pencil “Edit” icon inline-right of the name

Body: vertical list of settings rows, each with an icon inline-left, label text, and a chevron “>” icon right-aligned:

- Saved Addresses
- Payment Methods
- Notification Preferences
- Language
- Emergency Contacts
- Refer & Earn
- Mazdoor Plus (Subscription)
- Help Center
- Account Settings
- Logout (separated, red text)
- Small text link at the very bottom, low emphasis: “Delete Account”

14.2 14.2 Saved Addresses Screen

List of address cards (label icon, address text, Edit/Delete icons inline-right of each), “+ Add New Address” button at bottom.

14.3 14.3 Notification Preferences Screen

List of toggle switches: Booking Updates, Promotions & Offers, Chat Messages, Bid Updates — each row label left, toggle switch right.

14.4 14.4 Language Settings Screen

Same grid layout as 1.2, current language pre-selected.

15 PHASE 15 — NOTIFICATIONS, REFERRAL, SUBSCRIPTION

15.1 15.1 Notification Center Screen

Accessed via bell icon on Home top bar

List of notification rows, each: small category icon left (booking/promo/bid/dispute), bold title, grey subtext preview, timestamp right-aligned, unread rows have a small colored dot inline-left of the icon

Tapping any row navigates directly to the relevant screen (booking detail, chat, bid dashboard, ticket).

15.2 15.2 Refer & Earn Screen

Large illustration top, heading “Give Rs.150, Get Rs.150”

Unique referral code shown in a dashed-border box, copy icon inline-right of the code

Primary button: **“Share via WhatsApp”** (WhatsApp icon inline-left) — largest/most prominent since WhatsApp dominates Pakistan; secondary row of smaller icon-only buttons for SMS/other share

Below: progress tracker text “3 friends joined · Rs.450 earned” with a small list of referred friends’ first names + status (Joined/Pending)

15.3 15.3 Mazdoor Plus (Subscription) Screen

Two side-by-side comparison cards: “Free” vs “Mazdoor Plus — Rs.X/month” (Plus card visually elevated/highlighted with a colored border and a small “Popular” ribbon badge top-corner)

Bullet list under each card with checkmark/x icons inline-left of each benefit line (Zero Service Fees, Priority Support, Priority Matching, etc.)

Bottom button on the Plus card: “Subscribe Now”

16 PHASE 16 — HELP CENTER

16.1 16.1 Help Center Screen

Search bar top: “Search for help”

FAQ category tiles grid below (icon + label): Bookings, Payments, Safety, Account, Disputes
“Contact Support” button fixed at bottom, opens a chat-style thread with a support bot/agent, with a quick option row of common issues as tappable chips at the top of that chat.

End of customer-side detailed spec.
